

# Minimum Requirements to take Advantage of the ACOPA iPatrol App

To take full advantage of the ACOPA iPatrol App, when purchasing an iPad, you need to do the following:

- Choose an iPad that has Cellular capability. In the screen shot from the Apple's website, any for the devices in the **blue box** will work but the least expensive device is in the **green box** for \$469.
- You should ask for an **open device** as this will allow you choose which company you get a data plan from and you can change without having to get an new iPad.
- Next you need to choose an internet provide. I have shown the plans from Telus, Rogers and Bell as they are all very similar. The plan I recommend is a **Mobile Internet Flex Plan** for \$10 per month. This is available from all providers. This will cost you \$10 per month the first 100MB of data but will go higher if you use a lot of data. If you use this iPad only for the ACOPA iPatrol App, you should not exceed this amount. There are a number of thing you can do to restrict the data access only to the iPatrol App. The most import part of the decision in choosing an internet provide, is which company gives you the best coverage in your area.
- You may need to pay for a sim card and setup fees depending on where you buy the iPad. I have found that the Apple store includes this in the cost of the device. This will range from \$0 to \$20.
- Do not forget to budget GST on top of these costs.

### Why Bell is the best choice for Mobile Internet

**Blazing-fast speeds**

Your Turbo Stick, Turbo Hub or MiFi device will run on the Bell network, reaching super-fast 3G, 4G or LTE speeds while never falling back to 2G. Plus, we're always expanding to give you blazing-fast speeds in more places.

[More about the Bell network](#)

**Flexible pricing**

Price adjusts automatically based on how much data you use.

**Get more flexibility with Mobile Internet \$10 flex**

The monthly fee starts at \$10/month and automatically adjusts based on how much data you use. For example, if you use 400MB of data during the month, you'll pay \$30, and if you use 50MB on the following month, your rate will be adjusted to \$10 – it's that easy.

Starting at  
**\$10/mo.**  
For up to 100 MB

Up to 100 MB	\$10/mo.
101 MB to 500 MB	\$30/mo.
500 MB to 2 GB	\$45/mo.
2 GB to 5 GB	\$60/mo.
5 GB to 10 GB	\$85/mo.

If data exceeds 10 GB, \$5 per additional GB will be charged.

Add voice service to your Mobile Internet flex plan

- Unlimited local and Canadian long distance minutes<sup>1</sup>
- Call Display, Message Centre and Call Waiting<sup>2</sup>
- For an extra \$5/month, get unlimited calling from Canada to the U.S.<sup>3</sup>
